💬 Kristen | February 16, 2014 at 5:09 pm

I bought this ball last week from Patty at a home show in Rockland County, NY. She said it was great for clothes that you wear to the gym, yoga, etc. Since I am a yoga teacher, I thought this would be a great investment. I washed my boyfriend's clothes with it first since he is a trainer in sports performance/body builder/powerlifter. Needless to say he is ALWAYS working out! He had deodorant stains which I used the stain remover stick from SmartKlean then I threw it in the wash as I was told with cold water with the SmartKlean ball and VOILA !! the stains are gone! I have before & after pictures to prove it. Like everyone else, I was skeptical but this ball (and stick) are a GREAT investment! Your clothes just smell CLEAN. There's no added odor or anything. I definitely suggest everyone buy this!

Also, if there is a place to send my before & after pictures as well- I'd love to know!

🗨 Audun Hjelseth | February 6, 2014 at 7:45 pm

I just cleaned my wooden floor with laundryballwater. (10min with the ball in the bucket). All clean and no rest of soap on the floor. I also washed my car with the water. I removed both asphalt and diesel-spill. Impressing.

Reply

🗨 Char | February 9, 2014 at 1:01 am

Did you just put the ball in the water and then take it out after 10 minutes ? I wonder if that would change the ball for drying clothes ?

Reply

🗨 Audun HJelseth | February 9, 2014 at 8:47 am

I took the ball out before using the water, stirred a little with it first.

🗨 J Barker | February 3, 2014 at 4:19 pm

This sounds terrific! A modern version of going to the river bank & cleaning clothes on the rocks!!

Reply

🗨 Char | September 13, 2013 at 8:58 pm

I have been using the Smart Klean Laundry Ball for 2 years.I just now have purchased my 2nd ball but I don't need to change it yet.I live on a farm and no matter what I have put in the laundry, the Smart Klean Laundry Ball gets it clean.It actually removed a few stains that I thought were set.Believe me when I say, you can't go wrong by using this product.

🗨 Pamela deVries | July 4, 2013 at 9:42 pm

Client testimonials are the best way to sell product. This weekend I had a "rib sauce incident" while wearing my white capri's and white and red cotton top. I was sure they were ruined with all that grease and tomato/pepper combo. About two months ago I switched to using the non-detergent Laundry Ball below. It was hard to believe that a ball full of rocks and magnets can clean but folks you would NEVER believe it. – I used the stain bar on the rib sauce and then said a prayer and threw it all in the machine. Be sure to look for me in my white capri's and top to see that there is NO rib sauce on my clothes. If I was not sure before – I can tell you now for certain, this little super ball works fabulous while saving you money and being Eco friendly and non allergenic who could ask for more

SportClips Haircuts for men and boys/January 6,2013

I have been using SmartKlean aka green ball at my home and 2 SportClips locations for the past 1 1/2 years. I am most satisfied with this easy to use product, I also feel good that I am making a contribution in lessening the amount of landfill/recyclables, not to mention the \$\$\$savings. FYI we do 5+ loads of laundry at each store daily.... That's alot of laundry detergent.....

Reply

April | September 5, 2012 at 5:22 pm

It got the skunk smell out of my towel!!! When my dog Sophie got skunked in the face we rushed her to the shower to flush out her eyes. When we were done with the treatment we towelled her off and comforted her. My towel smelled horrible and I thought there would be no saving it. Decided to give the laundry ball a try and threw the towel in. Low and behold it came out smelling like nothing! As someone who has developed an allergy to detergents and scents I am so glad I found this ball.

Reply

Terry | September 5, 2012 at 7:55 pm

I thought I had it bad with gym clothes and then cat pee on the bedding. It took it all out as well. Good to hear, nothing is much worse than skunk.

Reply

Kristen Grunewald | August 20, 2012 at 3:04 am

This is awesome! We have been using this for about 6 weeks now with great results! We have a family of 6, so we do a lot of laundry. All of the clothes are coming out clean, smell great and softer. We've also noticed a reduction in dryer lint, so I know it's easier on our clothes. The best testimonial happened this weekend when my teenage son brought home his football practice uniform...they were very dirty and VERY stinky. After I washed them, he sniffed them, and with a smile on his face, said, "WOW, these smell better than when I was issued them from the coach! Thanks Mom!" We will never go back to detergent again.

Reply

Darcy | July 9, 2012 at 3:40 pm

I've been using the Smart Klean Laundry Ball for about a month now and I love it. I particularly enjoy knowing that I am no longer putting any chemicals or toxins in my family's clothing and it's environmentally safe. Our clothes come out smelling clean and fresh in a natural way instead of the fake aromas that laundry detergents give off. I hang my laundry on the clothesline and let it dry naturally. All you can smell is fresh air!

¿¿¿¿ Lavar sin detergente ????

NOTA: No vendo nada, nomas les comparto algo que me esta dando un RESPIRO ENORME en la lavada=comadreada!

Mi experiencia:

\* SI LIMPIA: quita manchas, la ropa queda sin NINGUN OLOR (es decir, sin perfume pero tambien le quita los malos olores, el resultado es olor a limpio/ neutro)

\* La ropa queda suaviiiiiiiiitaaaa

\* Ahorro muchisimisimisimísimo tiempo: En 1/2 ya termine de lavar!!!! cosa que antes me llevaba de 2 a 3 hrs lavar de 3 a 4 cargas de ropa/cobijas/toallas!.. asi que me despreocupo.. lavo y me voy a la calle!! jaajaj

\* Ahorro muuuucha agua por que no requiere de enjuage, y por lo tanto ps tiempo tambien!

\* Y como una cosa lleva a otra, ps ahorro luz! por la disminucion en enjuagues, secadas, etc

\* Ahorro muuuucchhoo dinero: porque no compro/necesita NINGUN DETERGENTE/SUAVISANTE.

\* Quita la estatica!, comprobado!..ya no me ando electrocutando a cada rato jaja

:::: Ventajas extras geniales!! ::::

- Ya no me visto con quimicos de detergentes que quedan en mi ropa. Por lo tanto, le evito a mi cuerpo estar en contacto con una de las tantas posibles causas de CANCER, que es el estar en contacto directo de los quimicos de los detergentes!

- No contamina: asi que se protege a los HUMANOS, animales marinos y terrestres, los oceanos, etc, etc....bueno muchisimos! jajaja

- Aguanta 365 lavadas (esto aun lo tengo que comprobar)

- Me falta comprobar: La duracion de tiempo de vida de mi ropa y colores. Este producto DICE que tiene este beneficio!... ya me lo dira el tiempo y un ganchito! jeje

Espero les guste!

Let me first just say that I have very sensitive skin and also have eczema just like my sister and my mom. For the longest time I have been using the so called free and clear detergents and still suffered with irritated skin and even worse i would break out in cystic acne all over my body from time to time and i just learned to live with it. it was a nightmare having to do laundry and worry about putting all those chemicals on my clothes, till i came across the SmartKlean laundry ball. I was a bit skeptical when I first used it thinking how will it clean my clothes with out suds? But now i see it can. Not only does it clean my clothes with out putting harsh chemicals on my clothes it also makes my clothes supper soft! And the best part is that my skin is no longer irritated and i no longer break out allover my body! This laundry ball has made doing the laundry not a burden any more, in fact i look forward to doing the laundry now. I love the ball so much that I have recommended the ball to almost every one I know!

Thank you so much for creating such an amazing product

Reply

Bernice Vollebregt | April 3, 2012 at 2:16 pm

reply to my email. You will have to clean your machine. These tiny specks are from mold build up inside your machine. I cleaned my machine and no longer get the specks on my laundry. Sorry it ruined your clothes. For me it was just on towels and my sheets. Hope this helps.

### Reply

🗨️ Terry Ross | April 3, 2012 at 3:05 pm

Hello Amanda and Bernice

Others have experienced the same issue but these will eventually come off. It is the residue that has built up in your machine during its use. The first step to prevention is to clean your machine. Use straight hot water, vinegar and sea salt. I threw in an old towel to add weight since I have a front load machine. The 3 interact with each other and give the machine a body cleanse. use the same mixture to wipe down any seals, etc to remove the remaining residue. Remember it took many washes to get the build up but with a great first cleanse, it will be gone. Now your machine is healthier too and will have a longer life. Cheers, you are helping save the planet one wash at a time.

🗨️ Sarah | January 8, 2012 at 1:53 am

I have been using the SmartKlean laundry ball on my clothes for only 2 weeks, but so far I am thrilled. Everytime I wash something, it somehow gets softer. I feel great using this product on my daughter's belongings because I know there are not chemicals and perfumes in her clothes and bedding. Plus, I feel pretty good about saving money on laundry and doing something beneficial for the environment. I can't see myself using soap detergents again.

### Reply

🗨️ Bernice Vollebregt | December 23, 2011 at 6:35 pm

I did just what you said and have not had the problem since. Thank you.

### Reply

🗨️ Terry Ross | December 23, 2011 at 5:08 pm

There was a comment on specs now on the clothes and it is hard to get out. The info below is from the faq page. For search, type in spec and it is the bottome of the page with suggestions. Before you started using the SmartKlean laundry ball, you probably used detergent. Soap residues have stuck to the soap dispenser and to the inside of the pipes in your washing machine, causing them to clog up slowly and cause mold. Mold is then accumulated in different areas, but particularly the rubber seal on the door (typically HE front loaders). What happens with the laundry ball is that since it's not using stain-removing ingredients that are used in detergents, the mold ends up on the fabrics and stays there. The laundry ball is designed to clean day-to-day laundry, not mold stains.

So, first, if you have an HE front loader, investigate the rubber seal with a flash light, and wipe a paper towel over the inside of the rubber seal to see if the mold is accumulated there. After doing so, we recommend you clean out your washing machine by putting two cupfuls of white organic vinegar in the soap dispenser. This will help out in removing soap residue deposits. Organic vinegar is antibacterial and does not foam in your machine. If you do this regularly, your machine remains in top condition and mold-free. This is not caused by our laundry ball. In fact, many people experience this problem with detergent.

excelente me gustaría saber donde se consigue o donde lo puedo comprar

Reply

🗨 Bernice Vollebregt | December 18, 2011 at 3:14 pm

I just purchased my Smartklean Ball for my laundry and do love it for my coloured wash. However for my whites I have noticed occasionally on my pillow cases and sheets little tiny grey/black dots that are very difficult to wash out. Just wanted to let you know.

Reply

🗨 smartklean | December 23, 2011 at 4:51 pm

Thank you very much for your feedback. We're sorry your experience was not what you'd expected. We guarantee our product unconditionally, and we want you to be thrilled with your SmartKlean purchase. If you would like to return this for a refund or exchange, please contact us by email at [customer-care@smartklean.com](mailto:customer-care@smartklean.com). Also, if you are using an HE front loader machine, make sure there is no mold accumulated on the seal (the rubber part between the door and the drum), this may be the cause of the dark spots. If this is the case, all you need to do is run an empty cycle with 2 cups of white organic vinegar. This should clean your machine and remove the mold.

🗨 Tina Gray | November 4, 2011 at 9:56 pm

I do Aromatherapy Treatments using many different kinds of essential oils. When washing my sheets before, I would use detergents and TSP and it still wouldn't get the oils out. So I gave the SmartKlean Laundry Ball a try and it removed the oils and softened my sheets. My clients noticed a difference. I now sell the Laundry Ball to my customers!!

Reply

🗨 Kerry Rotchill | November 4, 2011 at 9:54 pm

Being a skeptical person I was leery to try the laundry ball but knowing that they are good for the environment and able to save me on detergent I thought I would give it a try. I was amazed how well it cleaned and was glad I purchased one but it was when I did my first dark load that I fell in love with it! 85% of my wardrobe is black or black and white combo and not only does the ball keep my darks dark I am sure it washed out soap residue that had built up and was starting to cause fading. It also allows me to laundry my black/white combo clothes without the black bleeding into the white. Not only has it saved me money on detergent it has pro-longed the life of my clothes!

Reply

🗨 27. Marilyn Phelps | November 4, 2011 at 9:51 pm

I have used the laundry ball for a year now and have started on my second one. I am absolutely thrilled with its cleaning power and ease of use. Being environmentally friendly, the ball cleans without polluting, is gentle on my clothes and has saved me hundreds of dollars in cleaning products in just one year. I have given them as baby and shower gifts, introducing this product to more people. No more thinking about stocking my cupboard with chemical-based detergents, fabric softeners and dryer sheets. A must in the home!

Reply

🗨 Terry Ross | November 4, 2011 at 9:42 pm

I wanted to look for vendors at the KW Home show and the list was the same as last year except for SMARTKLEAN. I was intrigued and that is why I went to the show. The sales pitch was great and the fact no chemicals are used is better. I am a thrifty person and any way to save money is attractive to me. The fact I am saving the environment makes me feel happy and safe. I made a purchase and that weekend put it to the test on my working clothes, all black, just in case it did not work. The results were great. Then the cat peed on a bed with comforter, sheets and mattress cover. Due to the size, I took it to the laundromat. Used just the ball and the result, NO cat urine odour.

This is a great product and everyone should have one, that is why my 5 children are getting this in their stockings instead of coal.

👤 MaraLou Rhodes | August 6, 2011 at 6:21 pm

I LOVE the laundry ball. I was skeptical at first but after using it I am a believer. I found them at a craft/festival show. It makes the clothes brighter, softer, less static, less water, less electricity, less time, etc. I can't say enough good about them. It even cleaned mustard & chocolate from the kids clothes. Great for allergies- no chemical added to your clothes. I told about them to my coworkers & now they are using them. I sent them to my sister & she is also spreading the word. Thank you for making this great item.

Reply

👤 Beth Bacon | June 29, 2011 at 5:14 pm

These balls are amazing – I have a son who does his own laundry – well he washes it – then forgets it in the washer for a couple of days. If you've ever done that you know the smell that comes with it – usually I have to rewash it 2 or sometimes even 3 times to get the smell out – one wash with the laundry ball and the smell was gone! Even from the washer itself – simply amazing!

👤 Andrea Alzate | June 4, 2011 at 4:25 am

Hi everyone, I am a mommy to a 17 month old boy and my bf works in restaurants, so needless to say I do a lot of laundry! I started using the Smartklean ball over a month now and I have to say I am very happy with the results. The ball leaves my clothes fresh and clean, even my bf's smelly restaurant clothes. I love how easy it is to use, no more detergent to measure or fabric softener to apply, there is no need for it since the ball leaves your clothes soft as well. Let me just say, that before having my son I never thought about the dangers of the products we use in our daily lives. My eyes were opened when my son developed skin rashes caused by the detergent we were using. I tried many different "Hypoallergenic detergents" but it was just one chemical replacing another chemical. Thankfully, I heard about the Smartklean ball and decided to give it a shot. Now, my son has no allergies and I can rest easy knowing that his clothes are chemical free! We are very satisfied with this product. It has kept our clothes clean, removing dirt, grease, odors,

even blood stains! and ultimately it has already saved us plenty of money considering the cost of detergent. The only cons that I have seen in this product is that with white clothes I would recommend pre-treating it with a stain remover. I have had some white clothes that still had the stains from my sons baby food after washing. The ball also will not leave your clothes with that lavender or mountain spring fragrance that we all love, but it does leave your clothes with a light fresh smell. I use dryer sheets to give the clothes a little bit more fragrance but it's not necessary. In conclusion, I believe that the Smartklean ball is an innovative and revolutionary new product. Anyone who has children or who wishing to save money should own one. Sincerely yours, Jason Mommy

---

💬 Alicia | November 6, 2011 at 10:29 pm

You might like to eliminate the use of dryer sheets and buy 2 small Dryer Balls. The product in the dryer sheets goes into your CLEAN clothes as you can note when they change from heavy clothes to limp ones. Dryer balls are noisy but they help keep clothes from wrinkles and static. Have introduced to my sisters and family and now also getting them to use the laundry ball which I find doing a great job also. FYI...cheers, Alicia

Reply

💬 Jenifer Weston | May 11, 2011 at 11:44 pm

As the song says "Now I'm a believer!" I became a rep only because i was pretty sure I could find 5 other people to try these and it didn't make sense to pay more for less.. I just got my product today. The very first thing i did was grab a white dish rag and go rub it in the grass in my yard. Then i brought it into my kitchen and smeared ketchup, mustard and yes, even blood from my finger onto it. The first half went into the wash with one laundry ball and four bath towels. The second half went into the wash with the same four more towels and the recommended amount of detergent. I didn't pre-treat anything, because that's not normally what I do. and I didn't skip the rinse cycle cuz i am a busy mom and will not realistically be running out to stop my washer. The results? AMAZING! The Smartklean ball got the well used dishrag NOTICEABLY cleaner and brighter! (I took pictures!) Both the laundry ball and the detergent left a yellow stain from the mustard, but again, the Smartklean ball stain was LIGHTER! I was floored! I was happy to think that i had a product that would equally replace my detergent, but to find that it works BETTER and gives me all the benefits of being non-toxic and Green as well. I'm sure with some pre-treatment, the results would be even more impressive. I'm sold, and will be recommending this to EVERYONE i know.

\*\*\* Side note. My 11 year old just walked in from school. I told him there were two rags on the kitchen counter and to please go bring me the one he thought was cleaner. He looked at me like I was nuts, but brought me the Smartklean sample. A completely unbiased opinion! NICE!

Reply

🗨 Satnam Singh | May 10, 2011 at 8:55 pm

The ball really works! I was a skeptic but now I'm a believer!

Reply

🗨 Melodie Tong | May 10, 2011 at 6:31 am

My clothes' colours fade less. And there's much less lint clogging up the drier. And I like that it's a lot less expensive than buying detergent. It's a perfect product for washing baby clothes.

🗨 Nathan Swartsman | May 7, 2011 at 7:59 pm

When I was first introduced to the Smartklean laundry ball at work, even with being a devoted environmentalist and learned scientist, I couldn't help being skeptical. I mean, who wouldn't considering all the conditioning we've all had with how cleaning in general should work. And we all still use soap to clean our bodies, so it would stand to reason. The turning point was the video on the Smartklean website. We stood there while I watched this marvel of an invention being introduced to me on his smartphone. For less than the cost of a night out for two, I hastily agreed to purchase one. I've been using my ball consistently for several months and have even convinced a couple of friends to buy one from Kavita. It's really not magic... Just science at its finest!

RECUERDEN PONER AL SOL ESTE PRODUCTO ,PARA QUE REACTIVEN SU MECANISMO INTERNO.

[Reply](#)

🗨 [Natalia Molina](#) | April 7, 2011 at 7:02 am

I have been a smartklean user for over a year now and I'm really grateful that this product exists in the market. Before Smartklean I was constantly dealing with skin irritations and rashes finally ending up at a dermatologist office to figure out the problem. Apparently, regular detergents had been irritating my skin for years and had finally managed to give me a whole new allergy to fragranced products on my skin. The dermatologist let me know how common this was, recommended I find a friendlier product, while leaving me bewildered that these products are even approved for use in your home.

Smartklean has been an amazing investment, always leaving my clothes and linens fresh. It feels

great to know that the items that are intimately in contact with my skin everyday are no longer a threat to my health or the environment.

I've recommended Smartklean to all my friends and family and highly encourage the skeptics to step out of their comfort zone and give it a try. My recommendation is in the best interest for the planet and the health of the community.

Thank you Smartklean!!!

Reply

🗨 Diane Gabriel | April 2, 2011 at 4:32 pm

I have used my new laundry ball that I purchased at the home and garden show for a week now. I can say that I notice no difference than when I use my expensive detergent. I was a little concerned at first because I have a front loading machine that does not use as much water as a normal machine. Do you know if that makes a difference?

My daughter was here this weekend and she is very "green". Her baby had a very messy diaper and we used a cloth diaper to clean it up. I threw it in the wash and asked her what she thought without telling her about the laundry ball. She was suprised that the stain was gone. She would like to try it on her expensive cloth diapers that she uses. My bachelor son who hates to wash clothes and never has laundry detergent when he needs it would probably like this too. I only wish that I had picked up 2 more when I had the chance at the show!!!

So I will be ordering 2 more from your site!!!

thanks- diane gabriel

Reply

🗨 smartklean | April 4, 2011 at 2:30 am

Thank you Diane, we are very pleased to know that you're happy with our product! The laundry ball is compatible with both front and top loaders. Remember that without any suds or residues, there's nothing to rinse meaning you can skip the rinse cycle and conserve water and energy.

Reply

🗨 Darren | February 9, 2011 at 12:59 am

I just bought my Smart Klean washer Ball last week and with my health challange ie M.S. (Multiple Sclerosis) it has made doing laundry a whole lot easier. With detergents both liquid and powder I was spilling all the time because of shaking in my hands, now I just toss in the ball and leave it. If all I have to do is put it on the window sill for a few minutes a month, hay then that is what I will do. My cloths have never been cleaner. and doing laundry has never been easier. I will definately recommend the Smart Klean laundry ball to everyone I know and come in contact with.

Just like most people I was a bit skeptical but after trying the laundry ball I am hooked. My husband is a longshoremen and he gets pretty sweaty and dirty some days and everything now comes out fresh and clean. I have even stopped using fabric softener, there is no need.

WOW! I ordered this and thought if it didn't work no big deal. I'd been using Tide for about 25

years and was getting tiered of the cost, storing the plastic containers etc. In an effort to cut useless spending I now very proudly use the SmartKlean Laundry Ball. I was a sceptic at first, but when my laundry came out of the washer smelling like I'd washed it in the stream I was sold. I tell everyone they have to buy this. I use two as I do bigger loads in a front loader and am always so happy with the results.

Dear SmartKlean,

We have been using your washing ball for almost a month now and we can honestly say it works and is saving us lots of money and helping to save the environment at the same time.

We have experimented with a number of stains and can honestly say they come off. Sometimes we may add vinegar which adds to removing tough stains.

Thank you for introducing us to this brilliant invention!!!

Kind regards,

Kos & Oly  
Northmead

I love SmartKlean! My friend told me about it since she knows I am conscious of artificial chemicals and toxins that harm our bodies and planet. It's been about six months now and I haven't had to buy any other laundry cleaner- no more plastic bottles nor chemicals plus I have saved so much money! My laundry is clean, fresh and natural- I'm very happy and hope everyone hears of smartklean and switches to it so the oceans and rivers are protected

I first heard of the SmartKlean laundry ball at work, while my co-workers where going on and on about it, so I decided to give it a try, and im glad I did! It works great and no more measuring, running to the store to buy more detergent, and sticky fingers. Thanks SmartKlean!!

Smartklean is a one of a kind product that has been beneficial to me on many levels. After several weeks of using Smartklean I have not had one article of clothing damaged or discolored. It is very effective against stains that are difficult to deal with. I feel better about doing large amounts of laundry knowing that this product is environmentally smart. It lasts so much longer than any detergent on the market, making it extremely cost effective and a big money saver. I've recommended Smartklean to all of my family and friends who are now hooked. If you care about

the quality of your clothing, the environment you live in and saving cash then Smartklean is definitely a fantastic buy.

Plagued by sensitive skin and a conscience that won't let me use chemical cleaning agents in my home I have always been open to using natural products. Through much trial & error I have been disappointed by the actual products, the wasteful manufacturing or that it's just marketed as earth-friendly but is just another crazy chemical. It's safe to say that I have probably tried every overpriced laundry detergent on the market before I found something that worked as well as Smartklean. It doesn't breakout my skin and isn't expensive! But best of all, it actually delivers on its promises...clean clothes & clean earth.

I know there are many skeptics out there, but a product as great as this definitely deserves a try. If you have any questions, please feel free to ask me about my experience.

I'VE BEEN USING THE LAUNDRY DETERGENT BALL FOR LIKE 3 WEEKS NOW AND SO FAR I FEEL THAT IT WAS A GOOD INVESTMENT. MY CLOTHES ARE CLEAN AND EVEN THOUGH IT DOES NOT HAVE THE DETERGENT SMELL THE CLOTHES DOES HAVE A CLEAN FRESH SMELL. WHAT I'VE BEEN DOING IS THROWING THE FABRIC SOFTENER SHEETS IN THE DRYER AND ITS WORKING FOR ME. IN TIME ONCE I GET USE TO IT I WILL ALSO STOP USING THOSE AS WELL. FIRST COUPLE OF TIMES I WASHED MY CLOTHES I'M NOT GOING TO LIE IT FELT WEIRD BUT ITS NORMAL EVERYTHING THAT YOU DO FOR THE FIRST TIME FEELS WEIRD. NOW I CAN SAY I FEEL COMFORTABLE AND WILL REFER IT TO MY FRIENDS.

I half skeptically purchased this product a few weeks ago. It's been nothing short of amazing. You the drop the ball in, run the cycle, and your clothes are clean. I live with a chef, his clothes wreak after a day or two's work. Our doubts were put to rest when his clothes came out perfectly fresh, time after time. I won't be using detergents anymore, and I hope (for the sake of our planets, wallets and bodies) more of my friends and family will do the same.
